Production orders.

(2) An order under this subsection may require a person in possession or control of the data or other output to produce it in intelligible form to the constable.

(3) Where a production order requires the person to whom it is addressed to produce any data or other computer output in intelligible form, that person—

(a) shall be entitled to use any key in his possession to obtain access to the data or output;

(b) shall be taken to have produced the data or output in intelligible form if—

(i) he makes, instead, a disclosure of any key to the data or output; and

(ii) the data or output is produced in accordance with the order, with respect to the person to whom, and the time in which, he was ordered to produce the data or output.

(4) Where a constable has reasonable grounds to believe that—

(a) a key to any data or other computer output is in the possession of any person; and

(b) the production of the key is necessary for the purposes of the investigation in relation to which—

(i) the constable makes, or intends to make, an application for a production order; or

(ii) a production order has been issued to the constable,

the constable may apply to the Resident Magistrate for an ancillary order to be included in the production order.

(5) An application under subsection (4) may be made—

- (a) in any case referred to in subsection (4)(b)(i), at the time of the application for the production order;
- (b) in any case referred to in subsection (4)(b)(ii), at any time after the making of the production order.

(6) Where the Resident Magistrate grants an application under subsection (4), the Resident Magistrate shall—

- (a) in the case of an application under subsection (5)(a), include the ancillary order in the production order;
- (b) in the case of an application made under subsection (5)(b), vary the production order to include the ancillary order.

(7) An ancillary order shall—

- (a) describe the data or other computer output to which it relates;
- (b) specify the time by which the order is to be complied with, being a reasonable time in all the circumstances; and
- (c) set out the production that is required by the order and the form and manner in which the production is to be made,

and any such order may require the person to whom it is addressed to keep secret the contents and existence of the order.

(8) In granting an ancillary order, the Resident Magistrate shall—

(a) take into account—

- (i) the extent and nature of any other information, in addition to the data or output in question, to which the key is also a key;

- (ii) any adverse effect that complying with the order might have on any business carried on by the person to whom the order is addressed; and
- (b) require only such production as is proportionate to what is sought to be achieved, allowing, where appropriate, for production in such manner as would result in the putting of the information in intelligible form other than by disclosure of the key itself.

(9) An ancillary order shall not require—

- (a) the production of any key which—
 - (i) is intended to be used for the purpose only of generating electronic signatures; and
 - (ii) has not in fact been used for any other purpose; or
- (b) the production of any data or other computer output to a person other than the constable or such other person as may be specified in the order.

(10) Where an ancillary order is addressed to a person who—

- (a) is not in possession of the data or other computer output to which the order relates; or
- (b) is incapable, without the use of a key that is not in his possession, of obtaining access to the data or other computer output or producing it in intelligible form,

he shall be taken to have complied with the order if he produces any key, to the data or other computer output (as the case may be), that is in his possession.

(11) It shall be sufficient for the purpose of complying with an ancillary order for the person to whom it is addressed to produce only those keys the production of which is sufficient to enable the person to whom they are produced to obtain access to the data or other computer output concerned and to put it into intelligible form.

(12) Where—

- (a) the production required by an ancillary order allows the person to whom it is addressed to comply with the order without producing all of the keys in his possession; and
- (b) there are different keys or combinations of keys in the possession of that person the production of which would constitute compliance with the order,

the person may select which of the keys, or combination of keys, to produce for the purpose of complying with the order.

(13) Where an ancillary order is addressed to a person who—

- (a) was in possession of the key but is no longer in possession of it;
- (b) if he had continued to have the key in his possession, would be required by virtue of the order to produce it; and
- (c) is in possession of information that would facilitate the obtaining or discovery of the key or the putting of the data or other computer output concerned into intelligible form, that person shall produce to the person to whom he would have been required to produce the key, all such information as is mentioned in paragraph (c).

(14) A constable who obtains an ancillary order shall ensure that such arrangements are made as are necessary for securing that—

- (a) a key produced in pursuance of the order is used to obtain access to, or put into intelligible form, only data or other computer output in relation to which the order was made;
- (b) every key produced in pursuance of the order is stored, for so long as it is retained, in a secure manner, and any records of such key are destroyed as soon as no longer needed to access the data or other computer output concerned or put it into intelligible form; and

(c) the number of—

(i) persons to whom the key is produced or otherwise made available; and

(ii) copies made of the key,

is limited to the minimum that is necessary for the purpose of enabling the data or other computer output concerned to be accessed or put into intelligible form.

(15) A constable who knowingly contravenes subsection (14) commits an offence and, upon conviction before a Resident Magistrate, is liable to a fine not exceeding one million dollars or to imprisonment for a term not exceeding twelve months or to both such fine and imprisonment.

(16) A person commits an offence if the person fails, without reasonable excuse, to comply with a requirement imposed on him by an order made under this section.

“information” includes data, text, images, sounds, codes, computer programs, software and databases;

“key” in relation to any data or other computer output means any key, code, password, algorithm or other data the use of which (with or without other keys)—
